

David Manuel

Senior Full Stack Engineer

davidmanuel5658@gmail.com | (832) 263-0157 | Houston, TX, 77061 | david-manuel-ab5666334

PROFESSIONAL SUMMARY

Senior Full Stack Engineer with over 10 years of experience designing, architecting, and building scalable web applications, APIs, and client-facing digital products. Proven agency and consultancy experience leading client engagements, establishing modern development workflows, and delivering high-performance solutions using React, Next.js, Node.js, PHP CMS environments (Drupal, WordPress, Symfony), and Docker. Skilled at bridging business requirements with technical delivery, integrating AI-assisted workflows responsibly, and deploying across modern cloud platforms (AWS, Vercel, Pantheon). Seeking a full-time, remote Senior Full Stack Engineer role with Savas Labs.

CORE COMPETENCIES

Frontend & Frameworks: JavaScript (ES6+), TypeScript, React, Next.js, React Native, HTML5, CSS3, Tailwind CSS, Material UI, Figma

Backend & CMS: PHP, Drupal, WordPress, Symfony, Node.js, NestJS, Python (FastAPI), RESTful APIs, GraphQL

Databases & Caching: PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch

DevOps & Cloud Platforms: Docker, CI/CD Pipelines, GitHub Actions, Vercel, Pantheon, Upsun, AWS (EKS, ECS, Lambda)

Architecture & Delivery: Technical Discovery, Solution Architecture, Client Communication, AI Development Tools (Cursor, Copilot, Claude Code)

PROFESSIONAL EXPERIENCE

Senior Full Stack Engineer

Dec 2022 – Present | Rochester, NY

Netsmartz

- Architect and deliver multi-tenant full-stack solutions and APIs using React, Next.js, Node.js, and Python, guiding technical discovery, scope definition, and cross-functional delivery from inception through launch.
- Evaluate and integrate responsible AI-assisted development workflows (OpenAI, Claude API, Cursor, Copilot) to accelerate production-ready application delivery and streamline client solution prototyping.
- Cut median API response times from 850ms to 380ms (a 32% increase in speed) by optimizing database queries, implementing Redis caching layers, and establishing modern front-end build pipelines.
- Design and maintain transactional, vector, and cache data layers across PostgreSQL, MongoDB, Redis, and Elasticsearch to ensure high availability, data security, and sub-second query performance.
- Build containerized development environments using Docker and automate zero-downtime deployment pipelines across Vercel, AWS, and modern PaaS platforms using GitHub Actions.
- Serve as the primary technical voice in stakeholder meetings, leading solution presentations, conducting code reviews, and mentoring a 5-person engineering team on coding standards and accessibility.

Senior Full Stack Software Engineer

Feb 2020 – Nov 2022 | Chicago, IL

Tempus AI

- Designed and deployed responsive client-facing web applications and secure REST/GraphQL APIs supporting complex data-heavy workflows and analytics dashboards.

- Reduced p95 API latency by 24% (620ms to 470ms) through database index tuning, asynchronous request handling, and optimized frontend bundle size strategy.
- Implemented robust authentication and authorization mechanisms (OAuth2, JWT, Enterprise SSO, RBAC) and field-level encryption aligning with strict data privacy and security standards.
- Standardized local development environments using Docker containers and deployed applications across cloud platforms using automated CI/CD practices.

Software Engineer

Dec 2015 – Jan 2020

Talmate

- Built custom backend services, custom APIs, and third-party platform integrations, reducing average execution times from 12 minutes to under 6 minutes (45% faster efficiency gain).
- Developed custom web applications and interactive modules, collaborating closely with UX/UI designers using Figma to deliver seamless user experiences.
- Configured automated deployment workflows and local container environments using Docker, GitHub Actions, and Azure DevOps to establish consistent engineering practices.

EDUCATION

Bachelor's Degree in Computer Science

Aug 2011 – May 2015 | Houston, TX

University of Houston
